

SRI KRISHNA CHAITHANYA RAJ MASIMUKKU

+91 8309329117 | mskchaithanyaraj@gmail.com

linkedin.com/in/mskchaithanyaraj | github.com/mskchaithanyaraj | mskchaithanyaraj.me

OBJECTIVE

Software Engineer with experience building scalable applications and a strong foundation in Data Structures, System Design, and software engineering principles, passionate about contributing to impactful products that improve people's lives.

SKILLS

Languages: Java, Python, C, C++, JavaScript, TypeScript, SQL

Frontend: React.js, Next.js, Redux Toolkit, Tailwind CSS, HTML5, CSS3

Backend APIs: Node.js, Express.js, FastAPI, REST APIs, WebSockets, JWT Authentication, API Architecture

Databases Cloud: MongoDB, PostgreSQL, MySQL, Redis, SQLite, ChromaDB, AWS (EC2, S3), Docker, Git, GitHub, Linux

AI & LLM Engineering: LLM Integration, RAG Pipelines, Embeddings, LangChain, LangGraph, LangSmith, MCP, AI Agents, Agentic Workflows, Vector Databases

System Design: Distributed Systems, Microservices, Caching, Load Balancing, Scalability, Message Queues

Core CS: Data Structures & Algorithms, OOP, DBMS, Operating Systems, Computer Networks, Concurrency, SOLID Principles

EXPERIENCE

SDET Intern - Cognizant Technology Solutions

Mar 2026 - July 2026

- Built UI automation frameworks using Java, Selenium WebDriver, TestNG, and Cucumber (BDD).
- Automated and validated REST APIs using Rest Assured for functional and regression testing.
- Worked with Spring Boot and Angular applications to implement end-to-end test automation.

SDE Intern - TaskLabs

Apr 2025 - Oct 2025

- Reduced redundant API requests by 30% through state management optimization using Redux Toolkit and custom hooks.
- Developed automation features for Chrome Extensions involving DOM interaction, event tracking, and real-time overlays.
- Diagnosed and resolved critical production issues across React, Next.js, and backend services, improving platform stability.
- Collaborated with cross-functional teams to deliver production-ready features following Agile development practices.

PROJECTS

ScaleURL (Distributed URL Shortener) github.com/mskchaithanyaraj/scaleurl

Jun 2026

Developed a scalable URL shortening service with custom aliases, analytics tracking, URL expiration, and Redis-based caching for low-latency lookups.

Concepts: Distributed Systems, Caching (Redis), Database Indexing, Scalability, Rate Limiting, Fault Tolerance

Assessment Recommendation Engine (RAG System) github.com/mskchaithanyaraj/shl-recommendation-engine

May 2026

Developed a RAG-based system using embeddings and FAISS for semantic retrieval. Implemented LLM-based reranking to improve recommendation relevance and accuracy.

Tech: Python, FastAPI, FAISS, Streamlit, Embeddings

EstateX (Real Estate Application) estatexonline.netlify.app

May 2025 - June 2025

Built a full-stack real estate platform supporting 100+ listings with JWT authentication and optimized search (95% faster).

Tech: React, TypeScript, Node.js, Express, MongoDB, Redux, Tailwind

EDUCATION

Seshadri Rao Gudlavaluru Engineering College, Krishna(dt)

2022 - 2026

Bachelor of Technology (B.Tech) in Information Technology | CGPA: 8.77

Relevant Coursework: DBMS, Operating Systems, Computer Networks, Data Structures

CERTIFICATIONS & ACHIEVEMENTS

Competitive Programming: Solved 400+ DSA problems across LeetCode, CodeChef, Codeforces, and HackerRank covering Graphs, Dynamic Programming, Trees, Greedy Algorithms, Binary Search, and Advanced Data Structures.

Leadership: Organized *Code with GPT*, an AI-assisted coding hackathon on HackerRank, and led development of *HealU*, a health-tech platform for personalized nutrition planning.

Certifications: NxtWave Full Stack Development, Java Programming (edX), Machine Learning Foundations, LangChain Academy (LangChain, LangGraph, LangSmith), Model Context Protocol (Anthropic).
